EXPERIENCE

OptimaGeeks, Lahore— *Shopify Developer*

FEB 2025 - PRESENT

- Developed and maintained a custom Shopify Plus Store for cuddleclones.com, a high-revenue eCommerce store generating approximately \$25M annually.
- Built fully custom product pages using Shopify Liquid and Metafields to render product-specific content and configurations dynamically.
- Implemented custom cart properties to pass user-selected options, personalization data, and uploaded images into the cart and order flows
- Worked closely with marketing and design teams to implement new features, landing pages, UI enhancements, and conversion-focused storefront experiences.

Company, Alchemative— *Shopify Intern*

DEC 2024 - JAN 2025

- Assisted in Shopify theme customization and homepage development for major retail brands, including Ethnic, Beyond East, and Sapphire.
- Developed responsive Shopify sections and reusable Liquid components.
- Collaborated with senior developers on production-ready UI implementation and testing.
